

CHILUKA MANIRATHNAM

Cybersecurity Student · Application & API Security · Ethical Hacking · Wireless / IoT Security Research

Hyderabad, India · +91 84650 69682 · chilmanirathnam1729@gmail.com · linkedin.com/in/manirathnam-chiluka/

OBJECTIVE

Third-year B.Tech Cybersecurity student with hands-on research in wireless security, machine learning applications, and malware detection. Certified APISEC Practitioner (ACP) with practical skills in offensive security, network analysis, and security tooling. Completed 24 TryHackMe Advent of Cyber challenges. Seeking a cybersecurity internship in penetration testing, application/API security, or vulnerability assessment.

SECURITY PROJECTS

Rolling Code Interception & Replay — RollJam Attack

2026

Wireless Security Research · HackRF One, Flipper Zero

- Built a proof-of-concept demonstrating vulnerabilities in rolling-code keyless entry systems by capturing, jamming, and replaying RF signals to simulate unauthorized entry.
- Researched and documented technical countermeasures, including advanced cryptographic sync and anti-replay mechanisms.

PHP Reverse Shell Detection Tool

2025

Malware Detection · Python, Static Analysis, Kali Linux

- Developed a Python-based static analysis tool designed to flag malicious PHP reverse shell scripts by identifying distinct command execution anomalies and dangerous functions.

PRACTICAL EXPERIENCE

TryHackMe — Advent of Cyber 2025

Dec 2025

Certificate: THM-OQXK6YS6AA

- Solved 24 security challenges traversing web exploitation, OSINT, digital forensics, and log analysis utilizing tools like Nmap, Gobuster, Hydra, and Wireshark.

CTF Competitions & Independent Lab Practice

2025 – Present

- Competed in CTFs focusing on packet forensics, web vulnerabilities, and cryptography; manage virtualized environments in Kali Linux for personal security tooling research.

TECHNICAL SKILLS

Security Tools: Wireshark, Nmap, Burp Suite, Gobuster, Hydra, tcpdump, John the Ripper, HackRF One, Flipper Zero **Programming:**

Python, C, Java (Basic) **Platforms:** Kali Linux, Linux CLI, VirtualBox, TryHackMe **Security Domains:** API Security, Web App Security,

Wireless Security, IoT Security, Vulnerability Assessment, Malware Detection, Digital Forensics, Network Security

CERTIFICATIONS

Certified Junior WebApp Penetration Tester (JWPT)

Hackers Daddy · Mar 2026

APISEC Certified Practitioner (ACP)

APISEC University · Apr 2026

Advent of Cyber 2025

TryHackMe · Dec 2025 · ID: THM-OQXK6YS6AA

Cybersecurity Essentials

Cisco · Jan 2026

Operating Systems Basics

Cisco · Jan 2026

Networking Devices & Configuration

Cisco · Jan 2026

Bootcamp on Machine Learning for Cyber Security

C-DAC Hyderabad (MeitY-NASSCOM FutureSkills) · Feb 2025

EDUCATION

B.Tech – CSE (Cybersecurity)

2024 – 2027 (3rd Year)

CMR College of Engineering & Technology

7.5 CGPA **Diploma – CSE**

2021 – 2024

Kshatriya College of Engineering

8.29 GPA **SSC – TS Board**

May 2021

TS Social Welfare Residential School

10.0 GPA

LANGUAGES

Telugu (Native), **English** (Proficient), **Hindi** (Intermediate)
